Abstract

This document describes known limitations of the Data Transformation Thomson Reuters library. For more information about the library, see the *Data Transformation Libraries Guide*.

CHAPTER 1

Installing a Thomson Reuters Library

Before you create a Thomson Reuters service, you must install the Thomson Reuters library, and then restart the Developer tool.

Note: If you are running a previous version, you can update the library from this release 10 .ZIP file, following the Installing Libraries steps in the *Data Transformation Libraries Guide*.

1. To install the library, copy the Thomson Reuters library .ZIP file to your local file system and unzip the file.
2. From the unzipped folder, copy the file `TR_import.tgp` to the directory `<Install_Dir>\<version>\clients\DT\autoInclude\system`.
3. Copy the folder `CmInternal_Reuters` to the directory `<Install_Dir>\<version>\clients\DT\bin\internalServices`.
4. Copy the folder `Gcodes_Lookups` to the `ServiceDB` directory.

CHAPTER 2

Known Limitations

There are no known limitations.

CHAPTER 3

Informatica Global Customer Support

You can contact a Customer Support Center by telephone or through the Online Support.

Online Support requires a user name and password. You can request a user name and password at http://mysupport.informatica.com.

The telephone numbers for Informatica Global Customer Support are available from the Informatica web site at http://www.informatica.com/us/services-and-training/support-services/global-support-centers/.
