The following table describes fixed limitations:

IR-696	Two similar strings, where one string is the concatenated form of the other string, return different match scores.

Reference Number	Description
IR-652	Two similar strings with adjacent initials return different match scores. For example, strings `Y Y Alan Pang` and `Alan Y Y Pang` return different match scores.

SSA-NAME3 10.0.0

Fixed Limitations

The following table describes fixed limitations:

Reference Number	Description
IR-240	The N3SCM options, WORSTSCR and WSCRNOEX, do not return expected scores during matching.
IR-237	The population files include the following changes: - Enhanced the customsets to remove out of order patterns. The affected population is Thailand. - Enhanced the Organization_Name edit list. The affected population is China.

Known Limitations

The following table describes known limitations:

Reference Number	Description
IIR-2799	When you perform a search that uses the Filter field in the LWM_FIELDS control, you get the following unclear error message: `NAME3V2 match failed 'Could not find field 'Filter<number>''` Workaround: Remove the Filter field from the LWM_FIELDS control because the LWM_FIELDS control does not support the Filter fields.
IIR-2117	On Windows, if the installation of SSA-NAME3 in console mode fails, the `errorlevel` value does not change from 0.
IIR-1539	When you use the Organization purpose for matching records, if the ID field of one record is a subset of the ID field of another record, the ID fields get 100% match score.
IIR-1478	If you install a product in a subdirectory of the `InformaticaIR` directory, any subsequent tries to run an installer fails. Workaround: Specify the `--install-dir` parameter when you start the installer. For example, `./install --install-dir InformaticaIR/iir` forces the installer to use the `InformaticaIR/iir` subdirectory instead of the default `InformaticaIR` directory.

Reference Number	Description
IIR-927	The Match Explain function does not work with multiple purposes.
IIR-572	The installer fails when you try to install to an empty preexisting directory. Workaround: Delete the directory and repeat the installation.
