Introduction

The Informatica SSA-NAME3 Release Notes provide important information about closed enhancement requests, fixed limitations, and known limitations of the release. Read this document carefully before installing or upgrading Informatica SSA-NAME3.

CHAPTER 1

Upgrading SSA-NAME3

To upgrade SSA-NAME3, perform a new installation in another directory instead of the existing installation directory.

For more information about upgrading SSA-NAME3, see *Informatica MDM Registry Edition Installation and Configuration Guide*.

CHAPTER 2

Fixed Limitations

The following table describes fixed limitations:

Reference Number	Description
IR-240	The N3SCM options, WORSTSCR and WSCRNOEX, do not return expected scores during matching.
IR-237	The population files include the following changes: <ul style="list-style-type: none">- Enhanced the customsets to remove out of order patterns. The affected population is Thailand.- Enhanced the Organization_Name edit list. The affected population is China.

CHAPTER 3

Known Limitations

The following table describes known limitations:

Reference Number	Description
IIR-2799	<p>When you perform a search that uses the Filter field in the LWM_FIELDS control, you get the following unclear error message:</p> <pre>NAME3V2 match failed 'Could not find field 'Filter<number>''</pre> <p>Workaround: Remove the Filter field from the LWM_FIELDS control because the LWM_FIELDS control does not support the Filter fields.</p>
IIR-2117	<p>On Windows, if the installation of SSA-NAME3 in console mode fails, the <code>errorlevel</code> value does not change from 0.</p>
IIR-1539	<p>When you use the Organization purpose for matching records, if the ID field of one record is a subset of the ID field of another record, the ID fields get 100% match score.</p>
IIR-1478	<p>If you install a product in a subdirectory of the <code>InformatICAIR</code> directory, any subsequent tries to run an installer fails.</p> <p>Workaround: Specify the <code>--install-dir</code> parameter when you start the installer. For example, <code>./install --install-dir InformatICAIR/iir</code> forces the installer to use the <code>InformatICAIR/iir</code> subdirectory instead of the default <code>InformatICAIR</code> directory.</p>
IIR-927	<p>The Match Explain function does not work with multiple purposes.</p>
IIR-572	<p>The installer fails when you try to install to an empty preexisting directory.</p> <p>Workaround: Delete the directory and repeat the installation.</p>

CHAPTER 4

Informatica Global Customer Support

You can contact a Customer Support Center by telephone or through the Online Support.

Online Support requires a user name and password. You can request a user name and password at <http://mysupport.informatica.com>.

The telephone numbers for Informatica Global Customer Support are available from the Informatica web site at <http://www.informatica.com/us/services-and-training/support-services/global-support-centers/>.
