Informatica® MDM - Product 360
10.0 HotFix 5

Release Notes

Informatica MDM - Product 360 Release Notes
10.0 HotFix 5
February 2022

Table of Contents

Preface

Refer to the *Informatica® MDM - Product 360 Release Notes* to learn about new features and enhancements, behavior changes between versions, and support changes in this version.

Informatica Resources

Informatica provides you with a range of product resources through the Informatica Network and other online portals. Use the resources to get the most from your Informatica products and solutions and to learn from other Informatica users and subject matter experts.

Informatica Network

The Informatica Network is the gateway to many resources, including the Informatica Knowledge Base and Informatica Global Customer Support. To enter the Informatica Network, visit https://network.informatica.com.

As an Informatica Network member, you have the following options:

- Search the Knowledge Base for product resources.
- View product availability information.
- Create and review your support cases.
- Find your local Informatica User Group Network and collaborate with your peers.

Informatica Knowledge Base

Use the Informatica Knowledge Base to find product resources such as how-to articles, best practices, video tutorials, and answers to frequently asked questions.

To search the Knowledge Base, visit https://search.informatica.com. If you have questions, comments, or ideas about the Knowledge Base, contact the Informatica Knowledge Base team at KB_Feedback@informatica.com.

Informatica Documentation

Use the Informatica Documentation Portal to explore an extensive library of documentation for current and recent product releases. To explore the Documentation Portal, visit https://docs.informatica.com.

If you have questions, comments, or ideas about the product documentation, contact the Informatica Documentation team at infa_documentation@informatica.com.

Informatica Product Availability Matrices

Product Availability Matrices (PAMs) indicate the versions of the operating systems, databases, and types of data sources and targets that a product release supports. You can browse the Informatica PAMs at https://network.informatica.com/community/informatica-network/product-availability-matrices.

Informatica Velocity

Informatica Velocity is a collection of tips and best practices developed by Informatica Professional Services and based on real-world experiences from hundreds of data management projects. Informatica Velocity represents the collective knowledge of Informatica consultants who work with organizations around the world to plan, develop, deploy, and maintain successful data management solutions.

You can find Informatica Velocity resources at http://velocity.informatica.com. If you have questions, comments, or ideas about Informatica Velocity, contact Informatica Professional Services at ips@informatica.com.

Informatica Marketplace

The Informatica Marketplace is a forum where you can find solutions that extend and enhance your Informatica implementations. Leverage any of the hundreds of solutions from Informatica developers and partners on the Marketplace to improve your productivity and speed up time to implementation on your projects. You can find the Informatica Marketplace at https://marketplace.informatica.com.

Informatica Global Customer Support

You can contact a Global Support Center by telephone or through the Informatica Network.

To find your local Informatica Global Customer Support telephone number, visit the Informatica website at the following link:
https://www.informatica.com/services-and-training/customer-success-services/contact-us.html.

To find online support resources on the Informatica Network, visit https://network.informatica.com and select the eSupport option.

CHAPTER 1

Binaries Download

This chapter includes the following topic:

Software

The installation packages of Product 360 10.0 HotFix 5 are available within the Informatica shipping portal.

Partners need to request the software through the partner portal.

If they have not registered, they can do it here: https://partners.informatica.com/

The following table lists the available packages and software development kits (SDK) to develop extensions for the current software version:

Content	File Name	Remark
Product 360 SDK target	PIM_10.0.0.05.00_SDK_target.zip	This package contains the target platform for the development of Product 360 extensions.
Product 360 SDK complete	PIM_10.0.0.05.00_SDK_complete.zip	This package contains the target platform for the development of Product 360 extensions plus samples.
Java REST client	PIM_10.0.0.05.00_SDK_RESTclient.zip	This package contains the Java client implementation encapsulating the REST based Services API.

CHAPTER 2

New Features

This chapter includes the following topics:
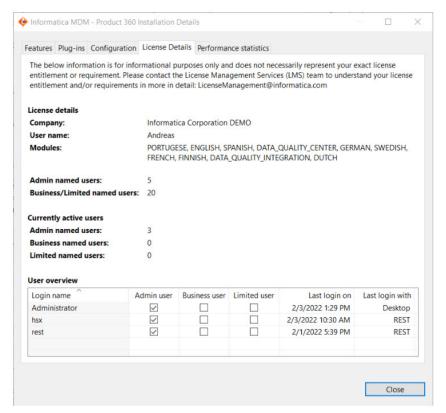

Simple SSO-Based Authentication

The newly introduced Simple SSO is a lightweight SSO mechanism, which is available for Product 360 Servers running on Windows or Linux. No 3rd party services, such as LDAP or SAML, are required.

For configuration and prerequisite details, refer to Server Configuration → Simple SSO in the Configuration Guide.

License Details Dialog

A new information dialog presenting details of the license issued for the usage of MDM - Product 360 has been added to the Desktop UI. The dialog can be opened via the "About" section of the "Help" menu and will grant an overview of license consumption in a convenient fashion.

The following image shows the license details for Product 360:

It shows the current license details including allowed amount of named users and languages. In addition, an overview of the currently active users and how those are distributed across user types can be seen.

Note: The information within the dialog is meant for informational purposes only and does not necessarily represent your exact license entitlement or requirement. The user count does not include Supplier Portal or Media Manager specific user accounts.

CHAPTER 3

Fixed Limitations

This chapter includes the following topic:

Fixed Limitations

This release delivers a number of bug fixes. If you encounter difficulties or have further questions regarding one of these limitations, contact Informatica Global Customer Support and reference the CR number.

Table 1. Product 360-Main

Reference Number	Description
HPM-57220	The obsolete characteristic MIME files are not cleaned up automatically.
HPM-57185	Desktop UI not starting and showing unexpected error.
HPM-57077	Image preview is not getting generated.
HPM-56924	Files are stuck in S3 Hotfolder in PROD environment.
HPM-56810	are generated when deleting characters in the RT field and removed on Save.
HPM-56761	Web UI Tabs - tables have limited visibility.
HPM-56704	No responsible server is available for INITIALIZER 'init.masterJobServer.'
HPM-56690	Deadlock occurred when multiple servers started in parallel.
HPM-56479	Manually creating Media Assignment in Desktop UI has issue.
HPM-56307	WF Task: Extra space in the label of the task for Master catalog.
HPM-56284	DQ Rule "filter" reference type is not working as expected.
HPM-56249	Sorting for structure groups is not working correctly if a second condition is used.
HPM-56199	Hotfolder Imports in Running and Scheduled States.

Reference Number	Description
HPM-56194	Adding/showing media asset attachment requires to have repository default language editable and visible.
HPM-56159	Channel status is not always correct when status of a DQ Rule Configuration is changed.
HPM-55995	Some of items are not assigned to structure groups during import.
HPM-55986	NullPointerException when configuring subentity deletion for prices with qualification for ValidAt logical key.
HPM-55668	Adding a new price row doesn't always trigger a BPM process.
HPM-55439	CleanUpJob doesn't continue with other entity types if one object throws error.
