HParser Installation Prerequisites. 5

Chapter 2: Known Limitations..... 6

Chapter 3: Informatica Global Customer Support..... 7

Abstract

This document contains important information about installation, new features, and known limitations of Data Transformation HParser. Do not upgrade to this release from a previous version without carefully reading the relevant sections on upgrading and bug fixes, since bug fixes might change the behavior of existing transformations.

CHAPTER 1

Installation

This chapter includes the following topic:

- [HParser Installation Prerequisites, 5](#)

HParser Installation Prerequisites

Before you install HParser, verify the following prerequisites:

- Linux 64 hardware is configured as a cluster of nodes in the network.
- Each node has 200 MB of disk space.
- Each node has Red Hat Enterprise Linux 5, update 3.
- An HDFS is installed and configured on the cluster.
- Hadoop MapReduce framework is installed and configured on all nodes.
- You must have user root privileges.

CHAPTER 2

Known Limitations

There are no known limitations.

CHAPTER 3

Informatica Global Customer Support

You can contact a Customer Support Center by telephone or through the Online Support.

Online Support requires a user name and password. You can request a user name and password at <http://mysupport.informatica.com>.

The telephone numbers for Informatica Global Customer Support are available from the Informatica web site at <http://www.informatica.com/us/services-and-training/support-services/global-support-centers/>.
