# Preface

The *Informatica Business Glossary Desktop Installation and Configuration Guide* is written for administrators who install the Business Glossary Desktop.

## Informatica Resources

### Informatica My Support Portal

As an Informatica customer, the first step in reaching out to Informatica is through the Informatica My Support Portal at <https://mysupport.informatica.com>. The My Support Portal is the largest online data integration collaboration platform with over 100,000 Informatica customers and partners worldwide.

As a member, you can:

- Access all of your Informatica resources in one place.
- Review your support cases.
- Search the Knowledge Base, find product documentation, access how-to documents, and watch support videos.
- Find your local Informatica User Group Network and collaborate with your peers.

### Informatica Documentation

The Informatica Documentation team makes every effort to create accurate, usable documentation. If you have questions, comments, or ideas about this documentation, contact the Informatica Documentation team through email at [infa\\_documentation@informatica.com](mailto:infa_documentation@informatica.com). We will use your feedback to improve our documentation. Let us know if we can contact you regarding your comments.

The Documentation team updates documentation as needed. To get the latest documentation for your product, navigate to Product Documentation from <https://mysupport.informatica.com>.

### Informatica Product Availability Matrixes

Product Availability Matrixes (PAMs) indicate the versions of operating systems, databases, and other types of data sources and targets that a product release supports. You can access the PAMs on the Informatica My Support Portal at <https://mysupport.informatica.com>.

## Informatica Web Site

You can access the Informatica corporate web site at <https://www.informatica.com>. The site contains information about Informatica, its background, upcoming events, and sales offices. You will also find product and partner information. The services area of the site includes important information about technical support, training and education, and implementation services.

## Informatica How-To Library

As an Informatica customer, you can access the Informatica How-To Library at <https://mysupport.informatica.com>. The How-To Library is a collection of resources to help you learn more about Informatica products and features. It includes articles and interactive demonstrations that provide solutions to common problems, compare features and behaviors, and guide you through performing specific real-world tasks.

## Informatica Knowledge Base

As an Informatica customer, you can access the Informatica Knowledge Base at <https://mysupport.informatica.com>. Use the Knowledge Base to search for documented solutions to known technical issues about Informatica products. You can also find answers to frequently asked questions, technical white papers, and technical tips. If you have questions, comments, or ideas about the Knowledge Base, contact the Informatica Knowledge Base team through email at [KB\\_Feedback@informatica.com](mailto:KB_Feedback@informatica.com).

## Informatica Support YouTube Channel

You can access the Informatica Support YouTube channel at <http://www.youtube.com/user/INFASupport>. The Informatica Support YouTube channel includes videos about solutions that guide you through performing specific tasks. If you have questions, comments, or ideas about the Informatica Support YouTube channel, contact the Support YouTube team through email at [supportvideos@informatica.com](mailto:supportvideos@informatica.com) or send a tweet to @INFASupport.

## Informatica Marketplace

The Informatica Marketplace is a forum where developers and partners can share solutions that augment, extend, or enhance data integration implementations. By leveraging any of the hundreds of solutions available on the Marketplace, you can improve your productivity and speed up time to implementation on your projects. You can access Informatica Marketplace at <http://www.informaticamarketplace.com>.

## Informatica Velocity

You can access Informatica Velocity at <https://mysupport.informatica.com>. Developed from the real-world experience of hundreds of data management projects, Informatica Velocity represents the collective knowledge of our consultants who have worked with organizations from around the world to plan, develop, deploy, and maintain successful data management solutions. If you have questions, comments, or ideas about Informatica Velocity, contact Informatica Professional Services at [ips@informatica.com](mailto:ips@informatica.com).

## Informatica Global Customer Support

You can contact a Customer Support Center by telephone or through the Online Support.

Online Support requires a user name and password. You can request a user name and password at <http://mysupport.informatica.com>.

The telephone numbers for Informatica Global Customer Support are available from the Informatica web site at <http://www.informatica.com/us/services-and-training/support-services/global-support-centers/>.

## CHAPTER 1

# Business Glossary Desktop Installation and Configuration

This chapter includes the following topics:

- [Business Glossary Desktop Installation and Configuration Overview, 8](#)
- [Before you Begin, 8](#)
- [Silent Installation, 9](#)
- [Installing Business Glossary Desktop in Graphical Mode, 10](#)
- [Server Settings, 10](#)

## Business Glossary Desktop Installation and Configuration Overview

You can install the Business Glossary Desktop in silent mode or in graphical mode. Install the Business Glossary Desktop in silent mode for all business users in an organization. You may also request that business users download and install the Business Glossary Desktop in graphical mode.

The Business Glossary Desktop connects to the Analyst Service which interacts with the Model Repository Service. The Model repository hosts business glossaries.

When you install the Business Glossary Desktop it becomes available as a client on the Windows desktop system menu for all business users. You can also provide business users a location to download the Business Glossary Desktop. You can tell users how to configure preferences, hotkey, and server settings for the client.

## Before you Begin

Before you begin the Business Glossary Desktop installation in silent mode or in graphical mode, you must turn the Microsoft Windows User Account Control (UAC) setting off. The UAC setting appears under User Accounts in the Control Panel. You must have Microsoft .NET version 3.5 installed on the computer where you want to install Business Glossary Desktop. If you have a newer version of Microsoft .NET, enable version 3.5 before you install Business Glossary Desktop.

# Silent Installation

Install the Business Glossary Desktop in silent mode and configure the preferences, hotkey, and server settings during installation.

You can use the command line to pass arguments to specify server settings for install in silent mode.

## Silent Installation Arguments

When you install the Business Glossary Desktop in silent mode, you must pass arguments to specify the server settings for the business glossary client.

The following list describes the silent installation arguments:

### **INSTALLLOCATION**

Location to install the Business Glossary Desktop.

### **PROTOCOL**

HTTP or HTTPS protocol.

### **HOST\_NAME**

Host name of the machine on which the Analyst Service runs.

### **PORT\_NO**

Port number of the machine on which the Analyst Service runs.

### **NAMESPACE**

LDAP or Native security domain of the user.

### **USER\_NAME**

User name of the Analyst tool user.

### **USER\_PASSWORD**

Password of the Analyst tool user.

## Installing Business Glossary Desktop in Silent Mode

To install the Business Glossary Desktop without user interaction, install in silent mode. Use the command line to pass arguments to install the Business Glossary Desktop. The Business Glossary Desktop menu appears in the Windows system menu after installation.

1. Open a command window.
2. Go to the root of the client installer directory.
3. Use the silent installation arguments to run the following command:

```
msiexec /qn /i Informatica_BusinessGlossaryDesktop.msi /l*vx <log file name>  
INSTALLLOCATION="<Location to install Informatica_BusinessGlossaryDesktop.msi>"  
PROTOCOL="<HTTP|HTTPS protocol>" HOST_NAME="<host name>" PORT_NO="<port number>"  
NAMESPACE="<security domain>" USER_NAME="<user name>" USER_PASSWORD="<password>"
```

For example, use the following command:

```
msiexec /qn /i Informatica_BusinessGlossaryDesktop.msi /l*vx  
Informatica_BusinessGlossaryDesktop.log INSTALLLOCATION="C:\Informatica  
\Informatica_BusinessGlossaryDesktop" PROTOCOL="http" HOST_NAME="lion"  
PORT_NO="10250" NAMESPACE="Native" USER_NAME="Administrator"  
USER_PASSWORD="Administrator"
```

# Installing Business Glossary Desktop in Graphical Mode

You can ask business users to download the Business Glossary Desktop from a specific file location.

1. Download and run the Informatica\_BusinessGlossaryDesktop.msi file.  
The **Informatica Business Glossary Setup** window appears.
2. Click **Next**.
3. Select the default folder or click **Change** to select another location to download the file and click **OK**.
4. Click **Next**.
5. Enter the server settings.
6. Optionally, click **Get Domain List** to retrieve a list of LDAP domains.  
Select the LDAP domain from the list.
7. Click **Next** and then click **Install**.
8. Optionally, select **Start Informatica Business Glossary Desktop** to start the client after download.
9. Click **Finish**.

## Server Settings

Configure server settings to enable the Business Glossary Desktop Client to reference the business glossary on a machine that hosts the Analyst Service. Business Glossary Desktop supports Kerberos authentication.

You can also update the server settings after you install the Business Glossary Desktop.

You can enter the following server settings:

### Protocol

HTTP or HTTPS protocol.

### Host

Host name of the machine on which the Analyst Service runs.

### Port

Port number of the machine on which the Analyst Service runs.

### Domain

Select the LDAP or Native security domain of the user from the list.

### Username

User name of the Analyst tool user.

### Password

Password of the Analyst tool user.
