Use the *Data Transformation EDIFACT Library Release Notes* to learn about new features, installation, and fixed limitations of the Data Transformation EDIFACT library.

For more information about the library, see the *Data Transformation Libraries Guide*.

New Features

The EDIFACT library release April 2017 improves support for escape characters in the Parsers and Serializers within the EDIFACT Data Transformation. In the Parsers, an escape character is removed from the parsed text. In the Serializers, the escape character is added if necessary to the serialized text.

Installing the Library

Before you can use a Data Transformation library, you must install it. Use the same steps to update a library.

1. Copy the library .zip file to your local file system and unzip the file.
2. From the unzipped folder, copy the folder `\<lib name>\Developer\DT` to the directory `<client installation directory>\<version>\clients\`.

Fixed Limitations

The following table describes fixed limitations:

CR	Description
CM-7720	HIPAA validation is not supported for Edifecs version 6.x.
LIB-6722	The Parser in the Data Transformation for EDIFACT messages requires compact mode, otherwise Restricted Validation fails at every empty element.
LIB-6709	The EDIFACT schemas are named <code>DELFOR_93A_schemas.xsd</code> and <code>DELFOR_93A_schemas_segments.xsd</code> , but Informatica Cloud expects to receive schemas named <code>DELFOR_93A_schema.xsd</code> and <code>DELFOR_93A_schema_segments.xsd</code> .
LIB-6667	The Serializer in the Data Transformation for EDIFACT messages has no validation.
LIB-6683	The Data Transformation for EDIFACT INSPRE 96A message is missing a mandatory error code.
LIB-6659	The Serializer does not add an escape character before a delimiter that is part of the data.

Notes

`instance_to_execute` is changed to "EDIFACT_Main_<Parser /Serializer/Restricted_Serializer>".

Informatica Global Customer Support

You can contact a Global Support Center by telephone or through the Informatica Network.

To find your local Informatica Global Customer Support telephone number, visit the Informatica website at the following link:

<https://www.informatica.com/services-and-training/customer-success-services/contact-us.html>.

To find online support resources on the Informatica Network, visit <https://network.informatica.com> and select the eSupport option.
