Read the *Release Notes* to learn about the fixed issues and known issues for Data Validation.

Fixed issues

The tables in this section describe recent fixed issues for Data Validation. Note that some releases might not include fixes.

October 2024 fixed issues

Issue	Description
CDV-2075	Data Validation doesn't display an error when the connection types of the saved SQL query and the connection used in the test case are different. Moreover, the name of the saved SQL query doesn't appear on the Connections tab.

Known issues

There were no known issues in this release of Data Validation. Not all monthly releases include known issues.

Connector and connectivity issues

The current release contains no connector or connectivity issues for Data Validation.

Informatica Global Customer Support

You can contact a Global Support Center through the Informatica Network or by telephone.

To find online support resources on the Informatica Network, click **Contact Support** in the Informatica Intelligent Cloud Services Help menu to go to the **Cloud Support** page. The **Cloud Support** page includes system status information and community discussions. Log in to Informatica Network and click **Need Help** to find additional resources and to contact Informatica Global Customer Support through email.

The telephone numbers for Informatica Global Customer Support are available from the Informatica web site at <https://www.informatica.com/services-and-training/support-services/contact-us.html>.
