CHAPTER 1

July 2022

The July 2022 release of API Portal includes the following updates.

New features and enhancements

The July 2022 release of API Portal includes the following new features and enhancements.

Custom APIs

You can view details of custom APIs and perform tasks that help you integrate the custom APIs in your applications and invoke them.

Custom APIs are APIs that aren't based on Informatica Intelligent Cloud Services Application Integration processes. Custom APIs help you manage APIs that are external to the Informatica environment.

For more information about custom APIs, see the API Manager help.
