Preface

Read the *Informatica Cloud MDM - Customer 360 for Salesforce Release Guide* to learn about the new features and enhancements, behavior changes between versions, and tasks you might need to perform after you upgrade from a previous version.

This guide is written for users of Cloud MDM - Customer 360 for Salesforce. This guide assumes that you have knowledge of the features for which you are responsible.

Informatica Resources

Informatica provides you with a range of product resources through the Informatica Network and other online portals. Use the resources to get the most from your Informatica products and solutions and to learn from other Informatica users and subject matter experts.

Informatica Network

The Informatica Network is the gateway to many resources, including the Informatica Knowledge Base and Informatica Global Customer Support. To enter the Informatica Network, visit <https://network.informatica.com>.

As an Informatica Network member, you have the following options:

- Search the Knowledge Base for product resources.
- View product availability information.
- Create and review your support cases.
- Find your local Informatica User Group Network and collaborate with your peers.

Informatica Knowledge Base

Use the Informatica Knowledge Base to find product resources such as how-to articles, best practices, video tutorials, and answers to frequently asked questions.

To search the Knowledge Base, visit <https://search.informatica.com>. If you have questions, comments, or ideas about the Knowledge Base, contact the Informatica Knowledge Base team at KB_Feedback@informatica.com.

Informatica Documentation

Use the Informatica Documentation Portal to explore an extensive library of documentation for current and recent product releases. To explore the Documentation Portal, visit <https://docs.informatica.com>.

If you have questions, comments, or ideas about the product documentation, contact the Informatica Documentation team at infa_documentation@informatica.com.

Informatica Product Availability Matrices

Product Availability Matrices (PAMs) indicate the versions of the operating systems, databases, and types of data sources and targets that a product release supports. You can browse the Informatica PAMs at <https://network.informatica.com/community/informatica-network/product-availability-matrices>.

Informatica Velocity

Informatica Velocity is a collection of tips and best practices developed by Informatica Professional Services and based on real-world experiences from hundreds of data management projects. Informatica Velocity represents the collective knowledge of Informatica consultants who work with organizations around the world to plan, develop, deploy, and maintain successful data management solutions.

You can find Informatica Velocity resources at <http://velocity.informatica.com>. If you have questions, comments, or ideas about Informatica Velocity, contact Informatica Professional Services at ips@informatica.com.

Informatica Marketplace

The Informatica Marketplace is a forum where you can find solutions that extend and enhance your Informatica implementations. Leverage any of the hundreds of solutions from Informatica developers and partners on the Marketplace to improve your productivity and speed up time to implementation on your projects. You can find the Informatica Marketplace at <https://marketplace.informatica.com>.

Informatica Global Customer Support

You can contact a Global Support Center by telephone or through the Informatica Network.

To find your local Informatica Global Customer Support telephone number, visit the Informatica website at the following link:

<https://www.informatica.com/services-and-training/customer-success-services/contact-us.html>.

To find online support resources on the Informatica Network, visit <https://network.informatica.com> and select the eSupport option.

CHAPTER 1

New Features and Changes

This chapter includes the following topics:

- [New Features, 6](#)
- [Changes, 6](#)

New Features

This section describes the new features in Spring 2019 version 6.60.

Assigning Permissions

After you install or upgrade CC360, assign permissions to the users through user profiles and permission sets.

For more information about how to assign permissions, see the *Informatica Cloud MDM - Customer 360 for Salesforce Setup Guide*.

Assigning Permission Sets to Users

CC360 contains a predefined permission set that has access to all the CC360 custom objects. You can assign this permission set to the intended users.

For more information about how to assign a permission set, see the *Informatica Cloud MDM - Customer 360 for Salesforce Setup Guide*.

Changes

This section describes the changes in Spring 2019 version 6.60.

Disabling the Salesforce Object and Record Type Fields

You can disable the **Salesforce Object** and **Record Type** fields in the Lightning Scout pages.

Previously, you could not disable the **Salesforce Object** and **Record Type** fields.

For more information about disabling the **Salesforce Object** and **Record Type** fields, see the *Informatica Cloud MDM - Customer 360 for Salesforce Administration Guide*.
